RETURN ADDRESS

The Katyusha Rocket "Multiple Rocket Launcher" BM-21 pictured below can be easily taken apart and smuggled into a "Demilitarized" Palestinian State. Individual Katyushas can be launched from a pipe with just a car battery. The rockets on this truck have a range of 12.7 miles (20.4 km). Katyushas can easily carry **chemical warheads.** One full salvo of rockets from the truck above would fire the explosive equivalent to 4 "Iraqi" type Scud missiles. No apartment in Tel Aviv will be safe.
