

# ISRAEL'S STRATEGIC VALUE

## POST 9/11 TERROR WAR SCENARIO

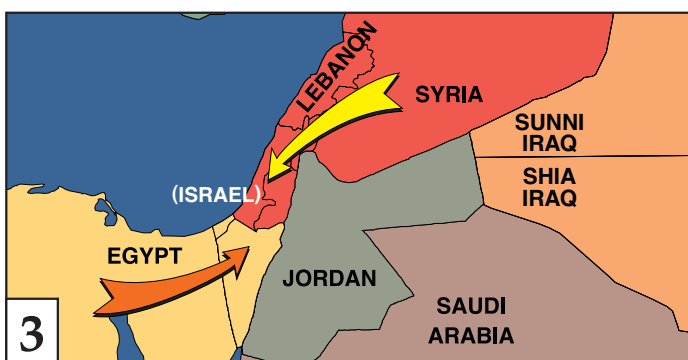

*A demilitarized Palestinian West Bank / Gaza State will turn Israel from a U.S. Strategic Asset and Bulwark to Middle East Terror that is able to defend itself, into a defenseless U.S. liability, inviting attack - unable even to defend itself, let alone project American military power.*

**1. ISRAEL as a self-defensible U.S. strategic asset:** With the Golan Heights (a), the West Bank mountain range (b) and the Gaza Strip (c) under Israeli military control, Israel is immune from a short- to medium-term existential threat.

**2. ISRAEL as an indefensible U.S. strategic liability, inviting attack:** Without the Golan Heights, the West Bank mountain range and the Gaza Strip under Israeli control, but instead under hostile Arab control, Israel will be strategically vulnerable and exposed to a short-term existential threat. Such a conflict will be fueled by continued Arab terrorism against Israel.

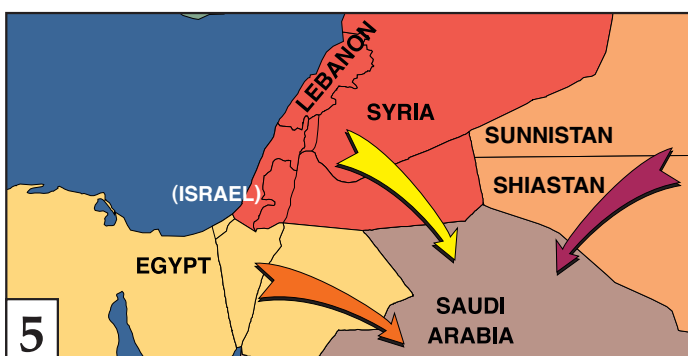

### 3. ISRAEL: the First Domino

Without the natural mountain defenses of the Golan and West Bank mountains, and with Israel's ability to mobilize degraded, Israel would be easily destroyed and occupied by Syria and Egypt. Even a heavily militarized Palestinian State will be unable to militarily contain either the Syrians or the Egyptians. Hezbollah, the Syrians and the Egyptians will all vie for the occupation of the coveted Jerusalem.

### 4. JORDAN: the Second Domino

Without Israel as its strategic protector, Jordan would be easily encroached by the militarily powerful Hezbollah, Syrians, Egyptians and Shiastan/Iran. Syria currently sees Jordan as Southern Syria and will fulfill its vision of Manifest Destiny.

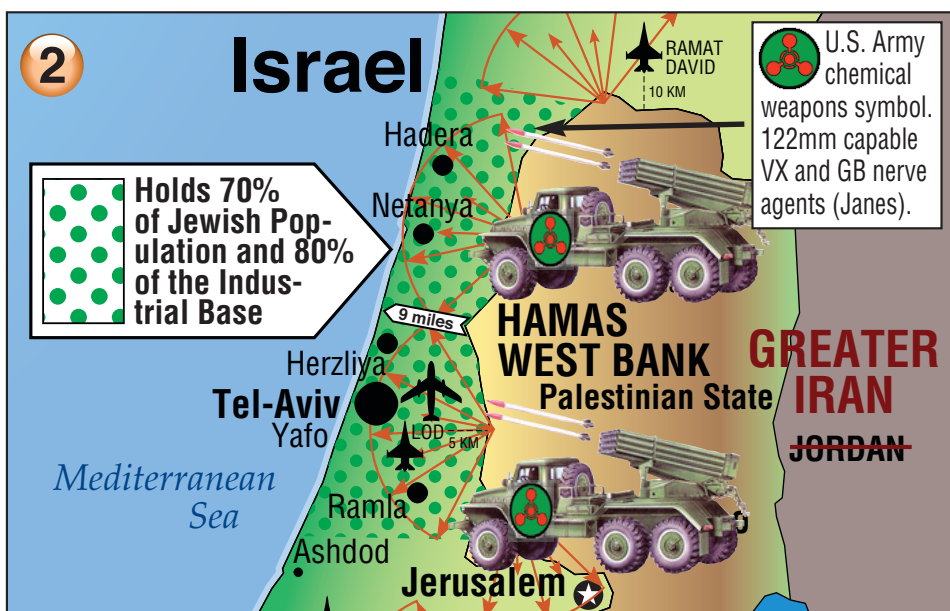

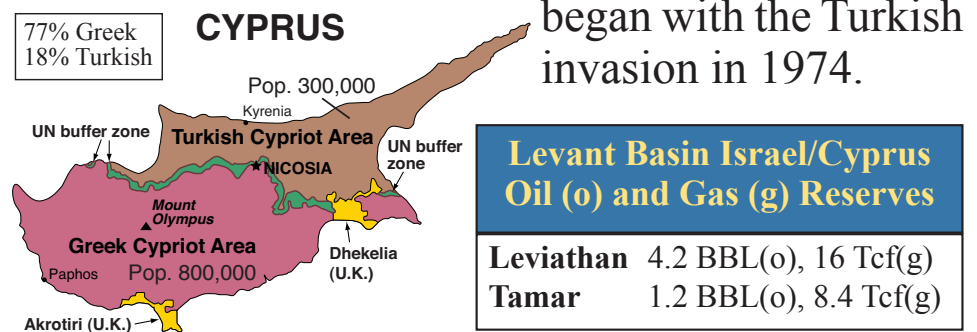

### 5. SAUDI ARABIA: the Third Domino

With the militarily powerful but oil-poor Egyptians and Syrians, and Shiastan/Iran on Saudi Arabia's northern border, Saudi Arabia will cease to exist. Without the Suez Canal under friendly occupational control, the Western powers will be unable to resupply or defend Saudi Arabia.

# Israel IS NATO's South-Eastern Flank defending Cyprus, Rhodes, Crete, and even Greece, against Turkey and an Iranian-occupied Israel.

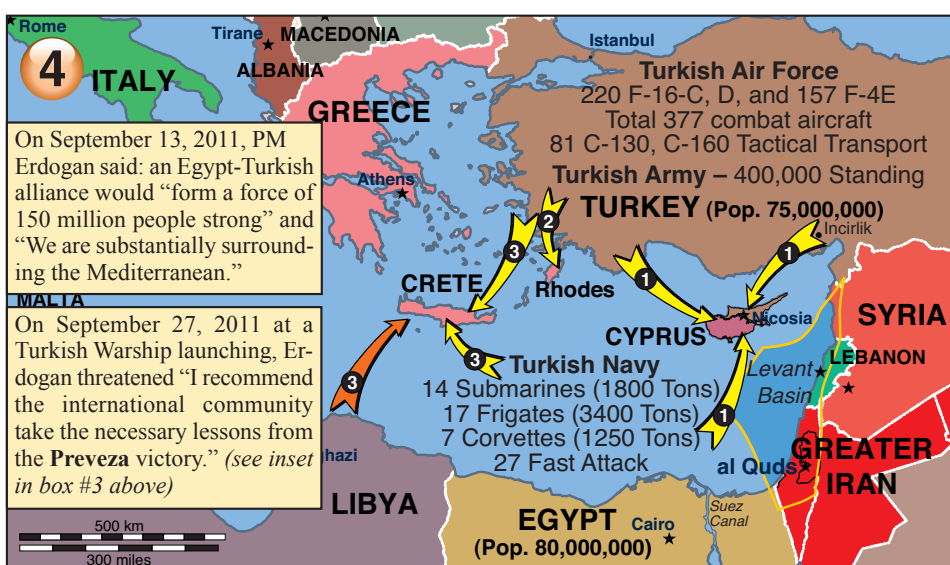

1. Now, Israel's battle-ready Order of Battle gives NATO a dependable, cost-effective, NATO-friendly shaped Battle Space to protect Greek Cyprus from a Turkish/Muslim Attack and devastation which began with the Turkish invasion in 1974.

2. Iran will first topple Jordan soon after a West Bank State is created. **Hamas** will overthrow Fatah in the West Bank, as they already have overthrown Fatah in Gaza. A West Bank **Hamas** Palestinian State will have tens of thousands of smuggled Katyusha Rockets (including VX (persistent) and GB (Sarin) nerve agents (Janes)) ranging over Tel Aviv and 70% of Israel's Jewish population. On Iranian orders, Hamas will fire barrages of rockets into Tel Aviv and Jerusalem, provoking an Israeli attempt to mobilize to reinvade the West Bank which will trigger massive Arab/Iranian long-range missile strikes.

3. Such a simultaneous Muslim Scud/Katyusha attack from 5 different directions will annihilate Israel. Israel is NATO's, and the West's first, **and only line of defense**, against the Westward advance of the Iranian Caliphate or a Turkish resurrection of its Ottoman Empire. Turkey is trying to steal billions of dollars of Greek Cypriot and Israeli Eastern Mediterranean gas resources to fund billions of further Islamic Mediterranean military build-up.

4. Without Israel's Order of Battle protecting Cyprus' Southeastern Flank and Battle Space, with Turkish frigates and subs infesting the Southern Cyprus waters and cutting off any military reinforcements and with Haifa as Iran's New Eastern Mediterranean Naval Base, Cyprus, Crete, Rhodes and even Greece will be lost to Turkey and the Iranian Shiite Caliphate. Iranian now-existing Shahib medium-range missiles (1000 miles) will range and cover southern Europe from their new bases in Yafo, Greater Iran. Greece will become indefensible. Iran and/or Turkey will be on Europe's doorstep.
